

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $9,197 \div 5 = 1,839 \text{ r } \underline{\hspace{2cm}}$

2) $5,956 \div 5 = 1,191 \text{ r } \underline{\hspace{2cm}}$

3) $221 \div 2 = 110 \text{ r } \underline{\hspace{2cm}}$

4) $106 \div 10 = 10 \text{ r } \underline{\hspace{2cm}}$

5) $32 \div 5 = 6 \text{ r } \underline{\hspace{2cm}}$

6) $64 \div 5 = 12 \text{ r } \underline{\hspace{2cm}}$

7) $20 \div 2 = 10 \text{ r } \underline{\hspace{2cm}}$

8) $48 \div 10 = 4 \text{ r } \underline{\hspace{2cm}}$

9) $364 \div 10 = 36 \text{ r } \underline{\hspace{2cm}}$

10) $96 \div 10 = 9 \text{ r } \underline{\hspace{2cm}}$

11) $713 \div 2 = 356 \text{ r } \underline{\hspace{2cm}}$

12) $3,365 \div 5 = 673 \text{ r } \underline{\hspace{2cm}}$

13) $6,157 \div 10 = 615 \text{ r } \underline{\hspace{2cm}}$

14) $75 \div 2 = 37 \text{ r } \underline{\hspace{2cm}}$

15) $25 \div 5 = 5 \text{ r } \underline{\hspace{2cm}}$

16) $26 \div 2 = 13 \text{ r } \underline{\hspace{2cm}}$

17) $1,362 \div 10 = 136 \text{ r } \underline{\hspace{2cm}}$

18) $639 \div 10 = 63 \text{ r } \underline{\hspace{2cm}}$

19) $504 \div 2 = 252 \text{ r } \underline{\hspace{2cm}}$

20) $3,994 \div 5 = 798 \text{ r } \underline{\hspace{2cm}}$
